

# INNAS BV RESEARCH & DESIGN ENGINEERS

Multiple vacancies for Mechanical Engineers MSc / BA

INNAS is a 100% R&D-company in the field of mechanical engineering. We invent, analyse and develop solutions for the industry. Our clients are based in Europe, as well as in North-America and Asia. The activities cover a mix of different disciplines, including design, theoretical analysis, prototype building and testing.

We are always looking for bright, young engineers, who are willing to learn and develop their design and engineering skills. Your interests are the basis for defining your job profile. It can cover all aspects of innovation and development, from the first bright idea up to commercialisation.

In case you are interested in learning more about working at Innas please contact us: [www.innas.com](http://www.innas.com), or call: +31 76 5424080.
